

PROSTATE CANCER FUNDRAISER

Prostate cancer not only affects men, but it has a significant impact on everyone around them. If you're a man and don't know what your prostate is or what it does, you are certainly not alone. Most men don't.

Over 30 million men suffer from prostate conditions that negatively affect their quality of life. Every year approximately 230,000 men will be diagnosed with prostate cancer and about 30,000 will die of it. Making it the most common cancer in men and the second leading cancer killer of men behind lung cancer. But if detected early, it can be treated.

This is why we need your help. We need to increase the awareness of this silent health crisis. Let's help our fathers, brothers, sons, husbands and friends live long healthy lives, let's fight the battle against prostate cancer and let's win the war!!

Help us by donating what you can to the "Prostate Cancer Fund". Every penny will help save a life.

Please make all checks payable to the Men's Health Network.
